

26-2020-13913 | Daika
[Magdassi Shlomo](#), HUJI, Faculty of Science, The Institute of Chemistry

Company Name

Daika

Year Company was Founded

2020

CEO

Dr. Michael Layani

About the Company

Daika has developed a new material which is 100% natural. Although wood is one of the most loved raw materials, its ability to be shaped is limited. It's a solid and therefore can't be molded. Daika overcomes this challenge and allows wood materials to be extruded, molded or printed. This opens the door for new opportunities and applications for shaping and processing wood.
